PROFESSIONAL SUMMARY

Java Developer skilled in building scalable backend applications using Java, MySQL, and PostgreSQL, with a strong foundation in Data Structures and Algorithms. Experienced in developing real-time systems and responsive web applications with a focus on performance and clean code.

EDUCATION

B.Tech in Information Technology

CGPA: 7.94

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College

HSC

Percentage: 62.7

Model School

SKILLS

Programming Languages: Java

Databases: MySQL, PostgreSQL

Web Technologies: HTML, CSS, JavaScript

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems

PROJECTS

Classroom Security Monitor — Unauthorized Person Detection System

Dec 2025

Python, OpenCV, JavaScript

- Engineered a real-time facial recognition system using Convolutional Neural Networks (CNN) to detect unauthorized individuals in classroom environments.
- Achieved ~92–95% detection accuracy by implementing optimized preprocessing pipelines and face encoding techniques.
- Built a Flask REST backend to handle live camera input, model inference, and real-time alert monitoring.

Lost and Found Monitoring System — Item Tracking Web Application

Dec 2025

HTML, CSS, JavaScript

- Developed a full-stack web application enabling users to report, search, and track lost/found items with local data persistence.
- Optimized search algorithm achieving ~95% faster item retrieval compared to linear search baseline.
- Designed a responsive, mobile-friendly UI ensuring accurate data handling and smooth user experience across devices.

INTERNSHIP

Web Development Intern — Corizo (Verified by Wipro DICE ID)

Oct 2024 – Nov 2024

- Developed a responsive portfolio website using HTML, CSS, and JavaScript with client-side form validation, improving data accuracy and user experience.
- Strengthened version control proficiency through structured Git/GitHub workflow sessions with senior mentors.
- Delivered project milestones on schedule, demonstrating adaptability and effective cross-functional collaboration.

CERTIFICATIONS

- Programming in Java — NPTEL
- Web Development Internship Completion Certificate — Corizo

ACHIEVEMENTS

- Solved 400+ coding problems on LeetCode, demonstrating consistent algorithmic problem-solving ability.
- Earned 3-Star (Java) and 2-Star (SQL) ratings on HackerRank.
