Career Objective

Aspiring Software Engineer with knowledge of Java, SQL, OOP, DSA, MySQL, and Generative AI. Experienced in developing web applications using Java, JDBC, and MySQL. Seeking an entry-level role to apply my skills, solve real-world problems, and learn emerging technologies.

Education

B.Tech in Information Technology 2023 -2027(Present)
Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai CGPA: 8.01

Higher Secondary Certificate 2023
Nallur Model Higher Secondary School, Ivathukudi, Cuddalore 62.8%

Technical Skills

- **Programming Languages:** Java, SQL
- **Databases:** MySQL
- **Web Technologies:** HTML, CSS, JavaScript
- **AI GenAI:** Generative AI Fundamentals, Prompt Engineering, LLM Fundamentals, RAG Fundamentals
- **Core Concepts:** Object-Oriented Programming, Database Management Systems, Data Structures & Algorithms

Soft Skills

Team Work | Time Management | Communication | Resilient | Adaptability | Problem Solving

Internship

Web Development Intern – Corizo (Verified by Wipro DICE ID) Oct 2024 – Nov 2024
Developed a responsive portfolio website using HTML, CSS, and JavaScript, implementing interactive UI components and client-side form validation. Used Git and GitHub for version control, code management, and project collaboration, and completed all assigned project tasks within deadlines while strengthening problem-solving, debugging, and web development skills.

Projects

Lost and Found Monitoring System – Item Monitoring Web Application Dec 2025
Tech Stack: Java, JDBC, MySQL, HTML5, CSS3, JavaScript

- Developed a web application that allows users to report, search, and track lost or found items. The system enables users to provide item details and search for matching records, helping users identify and recover misplaced belongings efficiently.

TransportEase – AI-Powered Vehicle Booking System April 2025
Tech Stack: Java, JDBC, MySQL, HTML5, CSS3, JavaScript, Generative AI

- Developed a vehicle booking application that allows users to find and book suitable buses, vans, and cars for events and group travel. The system supports user and vehicle-owner management, vehicle availability, booking, and fare calculation, with an AI-powered assistant that understands travel requirements and helps users identify suitable vehicle options.

Certifications

- Wipro TalentNext Certification in Java (2026)
- Programming in Java – NPTEL (2026)
- Web Development Internship Certificate – Corizo (2024)

Achievements

- Solved 500+ problems on LeetCode
- Earned 2-Star in Java and 3-Star in SQL on HackerRank
